

My family and I listen a lot to Christian Radio. Both K-LOVE and American Family Radio are the main stations we listen to. It is positive and informative. I believe this kind of station has a very positive impact on our community and especially the young people that I know that listen to it, but all ages benefit! I hate to see our community loose the choice of having stations like K-LOVE and AFR because in West Texas there does not seem to be enough funds to cover local ownership of these kinds of stations. These two in particular provide outstanding programming and use integrity in their business. It would be a great loss to our community if the LPFM broadcasting is allowed priority over these stations.

Thanks for your time!

Kelli Ballard
